

Countable objects are easy to count

Eg. One pen, two pens

Uncountable' things are difficult to count

Eg. Sand (imagine trying to count every grain of sand)

Unfortunately some words can be both

Eg. Ice-cream (Baskin Robbins uncountable, bought from a store countable)

Put these words into the diagram

book, dust, cup, soup, oil,
flower, mountain, music, rain,
river, snow, beer, glass, chick-
en

Can you think of other exam-
ples?
